This safety alert identifies which products are affected. Certain inflatable PFDs may be subject to delayed or non-inflations. To determine if you are impacted please follow the instructions below.

If you have a re-arm kit MA7214 or MA7218 you need only to check the lot number on the CO<sub>2</sub> cylinder label. If your CO<sub>2</sub> cylinder is marked with lot numbers 404121 or 404122 please contact Mustang Survival's customer service group at the number below.

If you have a PFD listed above refer to the sewn-in approval label to determine if it was "Made in Canada" and the "MFG DATE" is April or May 2012. If so, you will need to check the lot numbers of the CO<sub>2</sub> cylinder. The CO<sub>2</sub> cylinder lot number is visible through the yellow bladder fabric. Manually unpack your PFD by opening the zippers and unfolding your PFD. Find the CO<sub>2</sub> cylinder that is attached to the round inflator within the yellow bladder. Press the yellow bladder fabric against the cylinder to read the label to view the lot number through the fabric. If your CO<sub>2</sub> cylinder is marked with lot numbers 404121 or 404122, please contact Mustang Survival's customer service group for instructions and to arrange for a replacement inflator assembly.
