

TOWN OF CHATHAM CONSERVATION COMMISSION
Notice of Intent Application

The Massachusetts Wetlands Protection Act and the regulations (310 CMR §10.00) recognize eight important public values or functions provided by wetlands, water bodies and areas subject to protection. The premise of the Massachusetts Wetland Protection Act is that wetlands provide important functions that benefit the general public and therefore need to be protected. The protected interests of the Act include:

- Protection of public and private water supplies
- Protection of groundwater and water quality
- Providing flood control
- Prevention of storm damage
- Prevention of pollution
- Protection of fisheries
- Protection of shellfish & shellfish habitat
- Protection of wildlife & wildlife habitat

Therefore, any activity that would constitute filing, excavation, building upon, or other alteration of the land. Water or vegetation of a wetland resource area or the adjacent upland extending 100 feet from a wetland resource area is prohibited without a permit from the Conservation Commission and Massachusetts Department of Environmental Protection.

If you do not have experience filing out Notice of Intent (NOI) applications, the Conservation Agent can provide assistance in the process, but often it is best for an applicant to seek professional services from an engineer or other consultant who has experience in wetlands permitting.

The following NOI Checklist is considered part of the application and must be provided as evidence that the application is substantially complete in accordance with the requirements of the Chatham Wetlands Protection Regulations. If the application is deemed incomplete by the Agent or Commission a hearing will not be scheduled. If the hearing has already been scheduled, the Commission will request a continuance until the required information is received.
